Chronic Low Back Pain dominating your life?

Finally,
a solution for **Chronic Low Back Pain** that you can live with…
… and **work**
… and **play**
… and **sleep**.

You wouldn’t think it would be this simple…
… but it is.

Take your life back.

Electrical Stimulation Belt for Chronic Low Back Pain and Spasm Relief

Get The Relief You’ve Been Looking For.

Wearable Electrical Stimulation • FDA Cleared • Physician Prescribed

On-the-go treatment anytime you need it!

Non-pharmacological
reduces pain without drugs or side effects

Wear it while you’re active during the day
or at night while you sleep
Even if other treatments have failed you, we may be able to help.

By providing the same electrical stimulation therapy you receive in the clinic, our AxioBionics BioBelts allow you to make the most of your PT/OT time, spending your time on rehab rather than pain control.

Our electrode technology ensures reliable and consistent treatment, without the need to continually replace electrodes, regardless of whether you wear the belt for 1 hour or 12 hours a day.

We know Chronic Low Back Pain is different in each patient, that’s why we created our custom approach.

Our proven patient care process:

- In-person evaluation with our specially-trained clinicians
- Trial phase to ensure electrical stimulation is an effective treatment for you
- BioBelt selection, fitting and personalized treatment plan
- Follow-up visits to monitor your progress and make adjustments as needed

Our goal is to get you to the first third of the pain chart.

How it works: Our BioBelts send soothing electrical impulses, prompting your nervous system to suppress your pain.

Our BioBelt technology uses two types of electrical stimulation:

1. Transcutaneous Electrical Nerve Stimulation (TENS) to control your pain
2. Neuromuscular Electrical Stimulation (NMES) to manage muscle spasms

Treatment feels like a relaxing massage.

This is where most of our patients start

How it works: Our BioBelts send soothing electrical impulses, prompting your nervous system to suppress your pain.

Clinically Proven

Worst Pain Possible

Very Severe Pain

Severe Pain

Moderate Pain

Mild Pain

No Pain

Our goal is to get you here
Some patients can achieve **EXCELLENT** results the very first day of their trial.

Wearable Therapy® has been alleviating Chronic Pain in patients for over 25 years. Our qualified clinician will select the right belt for you and together we’ll create a custom treatment plan to fit your needs.

**Our 5 BioBelt Systems:**

- The **BioBelt LSO** is a combination of pain-reducing electrical stimulation paired with lumbar support for improved back care results.
- The **BioBelt Lite** offers the same deep pain relief while allowing more spinal movement.
- The addition of a front **Ab Panel** encourages the exercising of abdominal muscles.

After 5 years in pain, John's pain level was reduced from a 4–6 to a **0**.

After 2 years in pain, Jessica's pain level was reduced from an 8–10 to a **0–3**.

After 38 years in pain, Donna's pain level was reduced from an 8–10 to a **0–3**.

Affordable financing options available.

Caution: Federal law restricts the device to sale by or on the order of a physician or a practitioner trained in its use.
